

SARASTAR

OVERVIEW.

Whether you arrive on SARASTAR 60m(197ft) by helicopter, one of her two tenders, or Step on board from any glamorous harbour, you'll quickly realise you've set foot on a floating masterpiece. Vast social on-deck spaces offer numerous areas to relax with family and friends. The sundeck boasts designer furniture, a range of exercise equipment and a large onyx bar – there's even a cactus garden. Her interior is even more impressive; it's a stunning mix of marble, onyx walls, ceiling, floor and furniture, all complemented with velvet, silk and leather. Then add perfect black lacquer, glass, mirrors and artwork, and SARASTAR is more of an experience than a superyacht.

You'll enter the lounge through an onyx archway with sofa seating facing a mirrored entertainment system accessed via the grand onyx-sided table. Next is the first of two interior dining areas. Try not to spend too much time marvelling at the warm-toned glass chandelier above the Art Deco style; the rest of this fantastic yacht lies in wait.

The grandeur continues forward. You and your guest will be distracted by the Lorenzo Malfatti glass staircase sculpture as you pass through the lobby. Your guests will no doubt head to the lower deck to explore the surprises SARASTAR has in store for them in their breathtaking suites. To take in your master suite, you might need to rest on the central bed and lavish bed bench that's finished, like the rest of this full-beam suite, in velvet. On either side of this palatial suite, there are extendable balconies, perfect for private breakfast, coffee, or just to take in your beautiful surroundings while your partner readies themselves in one of the en suite bathrooms.

The guest suites exceed in lavishness too: marble floors, plush velvet-trimmed beds, ceiling and wall coverings, and with four double suites and a twin berth suite to choose from.

The foredeck al fresco lounge area redefines how you can spend a leisurely afternoon in the sun, with seating for all your guests and more, as well as expansive sunpads. Ahead of this space is the helipad. Not only is it used by aircraft, but it also made the perfect parking spot for a supercar during the 2025 Monaco F1 Grand Prix.

Regardless of whether you're dining al fresco, relaxing in the sky lounge, or unwinding after a thrilling day exhausting the contents of the yacht's toy box, SARASTAR offer you and your guests a one-of-a-kind experience.
